4. Petitions
5. Papers
6. Notices of Motion
7. ***Statements**
8. ***Motions and Bills**

***7* STATEMENT**

Hon. Speaker, Kala-azar, is a life-threatening disease caused by parasites spread by sandflies. It's characterized by fever, weight loss, and enlargement of the spleen and liver.

In recent days, this disease had affected so many persons from the two Wards of Laisamis and Loglogo. However, I had not received any information that the department of health is intervening to contain the situation.

Therefore, pursuant to Standing Order 41(A) (5), I request the CEC Member for Health Services through Committee Chair of Health services to furnish this House with;

1. The number of affected persons in the two Wards by the disease so far.
2. Steps taken by the Department to address the situation.
3. If there are enough medication, testing kits and mosquito nets for households to address the situation.
4. Plans the Department has to prevent future occurrence.

(HON. DANIEL BURCHA — MCA, LAISAMIS WARD)
